

PURINA TEAMS UP WITH PETZEY TO MAKE ON-DEMAND PET TELEHEALTH MORE ACCESSIBLE

Petzey Access Added to MyPurina App Rewards Offerings for Pet Parents

ST. LOUIS, March 20, 2024 /[PRNewswire](#)/ -- The pet experts at Purina are teaming up with Petzey, an on-demand mobile pet telehealth and wellness app, to make access to quality veterinary care more convenient for busy U.S. pet parents. Petzey offers on-demand pet health and wellness guidance through affordable virtual vet consultations and adds to Purina's growing list of pet expert-created content, tools and technology designed to help pet owners find, feed and care for their dogs and cats.

As timely and affordable access to veterinary care continues to be a challenge for pet owners, Petzey blends technology with traditional care by providing on-demand access to certified veterinary professionals nationwide for expert pet health and wellness guidance. Virtual vet consultations on Petzey cost \$20, offering a cost-effective supplement to traditional in-office veterinary care with quick access to a veterinary professional for immediate pet parent questions or concerns about their pet's health.

"Petzey is designed for the new generation of pet parents who are looking for services that are not only tech-forward but also deeply rooted in genuine care and accessibility," said Ameetess Dira, Chief Marketing Officer of Petzey. "Broadening access to affordable pet care helps pave the way for continued innovation and, most importantly, healthier pets across the country."

By working with Purina, members of the MyPurina program are able to redeem their Purina Perks points for discounts on Petzey telehealth consults. Access to exclusive offers from Petzey and other partners are available in the MyPurina app, a curated hub for every stage of the pet parenting journey.
